

## Hi Daniel!

The following clinical studies have been carefully curated to match your profile and are actively seeking participants. We recommend exploring these opportunities further to consider your involvement.

The clinical studies below are ordered by relevance to your patient profile and match your:

- Reported diagnoses of Dementia and Vascular dementia
  - Age
  - Gender identity
  - Country: Located in the USA
- 
- Study: Biomarkers for Vascular Contributions to Cognitive Impairment and Dementia Consortium (<https://clinicaltrials.gov/study/NCT06284213>)
  - Study: OCT Angiography and NRAI in Dementia (<https://clinicaltrials.gov/study/NCT03761381>)
  - Study: Feasibility of the SmartPrompt for Improving Everyday Function in Dementia (<https://clinicaltrials.gov/study/NCT04313582>)
  - Study: WeCareAdvisor Study for Caregivers of People Living With Dementia (<https://clinicaltrials.gov/study/NCT05012410>)
  - Study: Neuromodulation of Memory in Aging (<https://clinicaltrials.gov/study/NCT05460468>)
  - Study: DC Longitudinal Study on Aging and Specimen Bank (<https://clinicaltrials.gov/study/NCT03702907>)

- Study: Cerebral Autosomal Dominant Arteriopathy With Subcortical Infarcts and Leukoencephalopathy (CADASIL) Study (<https://clinicaltrials.gov/study/NCT05677880>)
- Study: Retina is a Marker for Cerebrovascular Health (<https://clinicaltrials.gov/study/NCT04753970>)
- Study: Atlas of Retinal Imaging in Alzheimer's Study (<https://clinicaltrials.gov/study/NCT03862222>)
- Study: Longitudinal Cognitive Assessment by BoCA (<https://clinicaltrials.gov/study/NCT04114994>)

These studies align with your reported diagnosis of dementia, age, gender identity, and country:

- Study: Pilot Testing Dementia-Enhanced Training and Tool for Home Hospice Clinicians (<https://clinicaltrials.gov/study/NCT05719077>)
- Study: PLAN: Dementia Literacy Education and Navigation for Korean Elders With Probable Dementia and Their Caregivers (<https://clinicaltrials.gov/study/NCT03909347>)
- Study: Care Planning for a Loved One With Dementia: Knowledge, Preparing for Decisions, and Emotions (<https://clinicaltrials.gov/study/NCT05165186>)
- Study: Old SCHOOL Hip-Hop: Improve Alzheimer's Disease Knowledge (<https://clinicaltrials.gov/study/NCT03284112>)
- Study: Care Coordination System for People With Dementia (<https://clinicaltrials.gov/study/NCT04308512>)
- Study: First-in-Human Evaluation of an Astrocytic Glutamate Transporter (EAAT2) PET Tracer in Dementia (<https://clinicaltrials.gov/study/NCT05374278>)
- Study: Persons With Dementia and Their Extended Family Caregivers (<https://clinicaltrials.gov/study/NCT04863859>)
- Study: Cereset Research Exploratory Study for Dementia Caregivers (<https://clinicaltrials.gov/study/NCT05209438>)
- Study: Dementia Family Caregiver Study (<https://clinicaltrials.gov/study/NCT04894006>)
- Study: Gamma-Induction in FrontoTemporal Dementia Trial (<https://clinicaltrials.gov/study/NCT04425148>)

Please indicate your most important trial filters (location, condition, etc.) on our website for more curated recommendations in our biweekly emails.

Please contact us if you would like to update your communication preferences.
